

DRY-BED-SANI

Animal Bedding Conditioner, Sanitizer and Hygiene Product.

Very Effective Absorbent Bedding Conditioner

DRY-BED-SANI is a high-quality absorbent that provides very dry bedding. It absorbs more moisture than any other bedding conditioner.

Fresh Environment

DRY-BED-SANI creates a pleasant environment, it contains Eucalyptus oil, helps reduce ammonia odours in the barn and ensures a more comfortable environment. Cows rest in a nice, fresh environment.

Easier Cleaning

DRY-BED-SANI helps form a complex mix for easier cleaning. It drains smoothly and becomes 100% liquid in the pit.

Easy-to-use

DRY-BED-SANI is very easy to use. It does not require any special handling or equipment. It can be easily and safely applied by hand.

A key to high production is how much time cows lie down. Healthy cows spend a large percentage of their time lying down. Proper care of their bedding is a vital aspect of overall dairy cow hygiene and health.

DRY-BED-SANI is a high-quality absorbent that helps maintain and preserve your production and profits. It does not release water, does not become muddy or slippery. It forms a complex mix for easier cleaning. It drains smoothly and becomes 100% liquid in the pit

DRY-BED-SANI creates a pleasant environment. It contains Eucalyptic Globulus oil, it helps reduce ammonia odors in the barn and ensures a more healthy and comfortable environment. It has also been observed that with the use of the DRY-BED-SANI the number of flies in the bedding area is reduced

“ We have been using the DRY-BED-SANI product by Promat for just over a month now. It is easy to use and stays on the stalls longer than any other products we have used in the past. It is also much more absorbent. Since using DRY-BED-SANI our Somatic Cell Count has indeed dropped and we will be purchasing it again.
